

## CHAPTER THREE

### WHY DID THEY STAY IN RUSSIA

I have an earlier section entitled "Why Germany to Russia". Having had to read a bunch of history about the Germans on the Volga, the questions arise "why did they stay." Whole books, articles and manuscripts have been written on the trials and tribulations of the Germans. Rather than try to paraphrase any article, set below are several historical tidbits about the life in Russia of the Germans. For one interested there are various books in the Bibliography attached. They will lead to others who are interested.

\*\*\*\*\*

Almost from the beginning the early emigrants learned too late that many of the promises made to entice them to Russia were false and misleading. The travels to their assigned area were harsh. The Russians had not prepared the colonies for living. The German emigrants were not farmers for the most part and ill prepared for that kind of basic living.

\*\*\*\*\*

Living amongst the Russian peasants was very difficult since they were not up to the same standards as the Germans. So the Germans retained their own language and dialects in their colony and lived in their surroundings apart from the Russians.

\*\*\*\*\*

They were not adequately protected from robber thieves in the area. The worst of them all was Pugachev who terrorized the various colonies before being captured and put to death.

\*\*\*\*\*

Over time the promises made to them by Catherine the Great were disregarded. One was freedom from military service. Germans were drafted into service. This led to early interest in the emigration to the U.S. and other countries.

\*\*\*\*\*

Those who stayed behind were literally taken without notice, at the beginning of WWII, trucked and moved to Siberia for the duration of the war. Many older Germans who survived Siberia have since tried to return to their villages only to find that others occupy their houses.

\*\*\*\*\*

On the plus side the German-Russians are credited with bringing to America--- Kansas and mid-America wheat fields the strain of winter-hardy Turkey Red wheat seeds turning mid-America into the breadbasket of America.

\*\*\*\*\*

CHAPTER FOUR  
COMING TO AMERICA

(the "Rooshins" are coming)

As seen on the following passenger list the siblings of Andreas Schaefer of Kamenka, Russia came to America on the S.S. Donau arriving in New York from Bremen, Germany on June 8, 1878. The listing is not clear so I will try to clarify.

The first name Georg, 27 is the child of Andreas born 8/18/1851 as Georg Joseph. He was married to Elizabeth (second name listed). She was 26. They were married in Russia. Her maiden name was Neuman. Their three children Alexander 3m, Joseph 11mos and Axexander 4 m are listed at the end of the passenger list.

The fourth name on the list is Catherina, age 53. She was the widow of Andreas and mother of J.M. Andreas had died in Russia and thus did not come to America.

The following children arranged by age are:

Catherine, 25  
Barbara 22  
Elizabeth 20  
Joseph 11 m  
Andreas 11m

The listed ages for Joseph and Andreas are in error. The second Pleve chart shows the names and ages of the children as follows:

Barbara born 1/12/1825 died in Russia  
Anna Maria born 8/12/1847 came with husband Jacob Wiesner-not on S S Donau  
George born 8/18/1851 27 in 1878 so age is correct  
Catherina born 7/10/1849 29 in 1878 not 25  
Barbara born 3/21/1854 24 in 1878 not 22  
Elizabeth born 6/21/1856 22 in 1878 and not 20  
Appolonia 12/23/1822-not listed & had married Franz Schmidt on 1/24/1839  
Joseph born 5/4/1859 died in Russia  
**Joseph** born 6/1/1861 17 in 1878 not 11 m  
Christina born 9/23/1865 died  
Andreas born 2/15/1866 12 in 1878 not 11 m

The Joseph highlighted above is J.M. Schaefer.

After arriving in America Catherina (mother), Catherina, Barbara, Elizabeth, Joseph and Andreas (Andrew) traveled to Pfiefer, Kansas and lived for awhile all as described in Sister Rosarias' "A GOODLY HERITAGE".

## CHAPTER FIVE

### MARRIAGES AND CHILDREN

Two of Prof Pleve family charts are at the end of this chapter. The first (printed vertical) was received from Prof Pleve (in Russian and translated) in July 1992. The second Pleve chart lists all Schaefer in Kamenka. This was received in August 1998. Attached is a copy of the right side of the chart since the other Schaefer are not in our lineage. (see Pleve letter accompanying chart 2. Both charts 1 and 2 are copied in full size on the attached CD.

Franz X Schaefer arrived unmarried in Kamenka in 1765 at the age of 24??. He first married Anna Maria (maiden name unknown). His second wife was Ann Margaret Ditz born in 1769?? Her parents were Philip Ditz (born 1711) and Barbara (born 1735). Barbara was Philips second wife. These people were from Alzey, Germany.

Franz and Ann Maria had three children:

Joseph born 1790

Anna Christina born 1795

Andreas born 1801 (our great-great-grandfather)

We have not traced the lineage of Anna Christina or Joseph. **Andreas** is our ancestor.

**Andreas** first married Margaretha Wissner (b 1803 d 1846) in 1821. He married a second wife Catherina Stang (b.1820) of Vollmer, Russia. She came to American and is buried in Hays, Ks.

There is a conflict between chart 1 and chart 2 in listing the children.

Chart 1	Chart 1	Chart 2	Chart 2
<b>First wife</b>	<b>Second wife</b>	<b>First wife</b>	<b>Second wife</b>
Appolonia 1822	Anna Maria 1847	Barbara 1825 (d 1825)	Barbara 1854
Andreas 1839 (d 1841)	Catherine 1949	Ann Maria 1847	Elizabeth 1856
Barbara 1825 (d 1825)	Georg Joseph 1854	Catharina 1849	Appolonia 1822
	Barbara 1854	Georg Joseph 1851	Joseph 1859
	Elizabeth 1855		Joseph 1861
	Josef 1861		Christina 1863
	Andreas 1866		(d1865)
			Andreas 1866

I believe the proper list of children are as follows--arranged chronologically:

**First wife: Margaret Wissner**

Appolonia 1822

Andreas 1839 (d 1841)

Barbara 1825 (d 1825)

**Second wife: Catharine Stang**

Anna Maria 1847

Catharina 1849

Georg Josef 1854

Barbara 1854

Elizabeth 1854

Joseph 1859 (d ??)

Christina 1863 (d 1865)

Joseph 1861 (OUR ANCESTOR)

Andreas 1866 (Andrew)

The listing of Appolonia in Pleve chart 2 does not add up from the birth dates. She married Franz Schmidt (b 1818) in Russia on 1/24/1839. He died in Russia. She did not come to America. The first Joseph born to Andreas and Catherine Stang obviously died as the next child born in 1861 was also Joseph (J.M.). The above list on the right also comports with the passenger list naming the Schaefer siblings coming to America except Christina who apparently died in Russia in 1865.

Kamanka

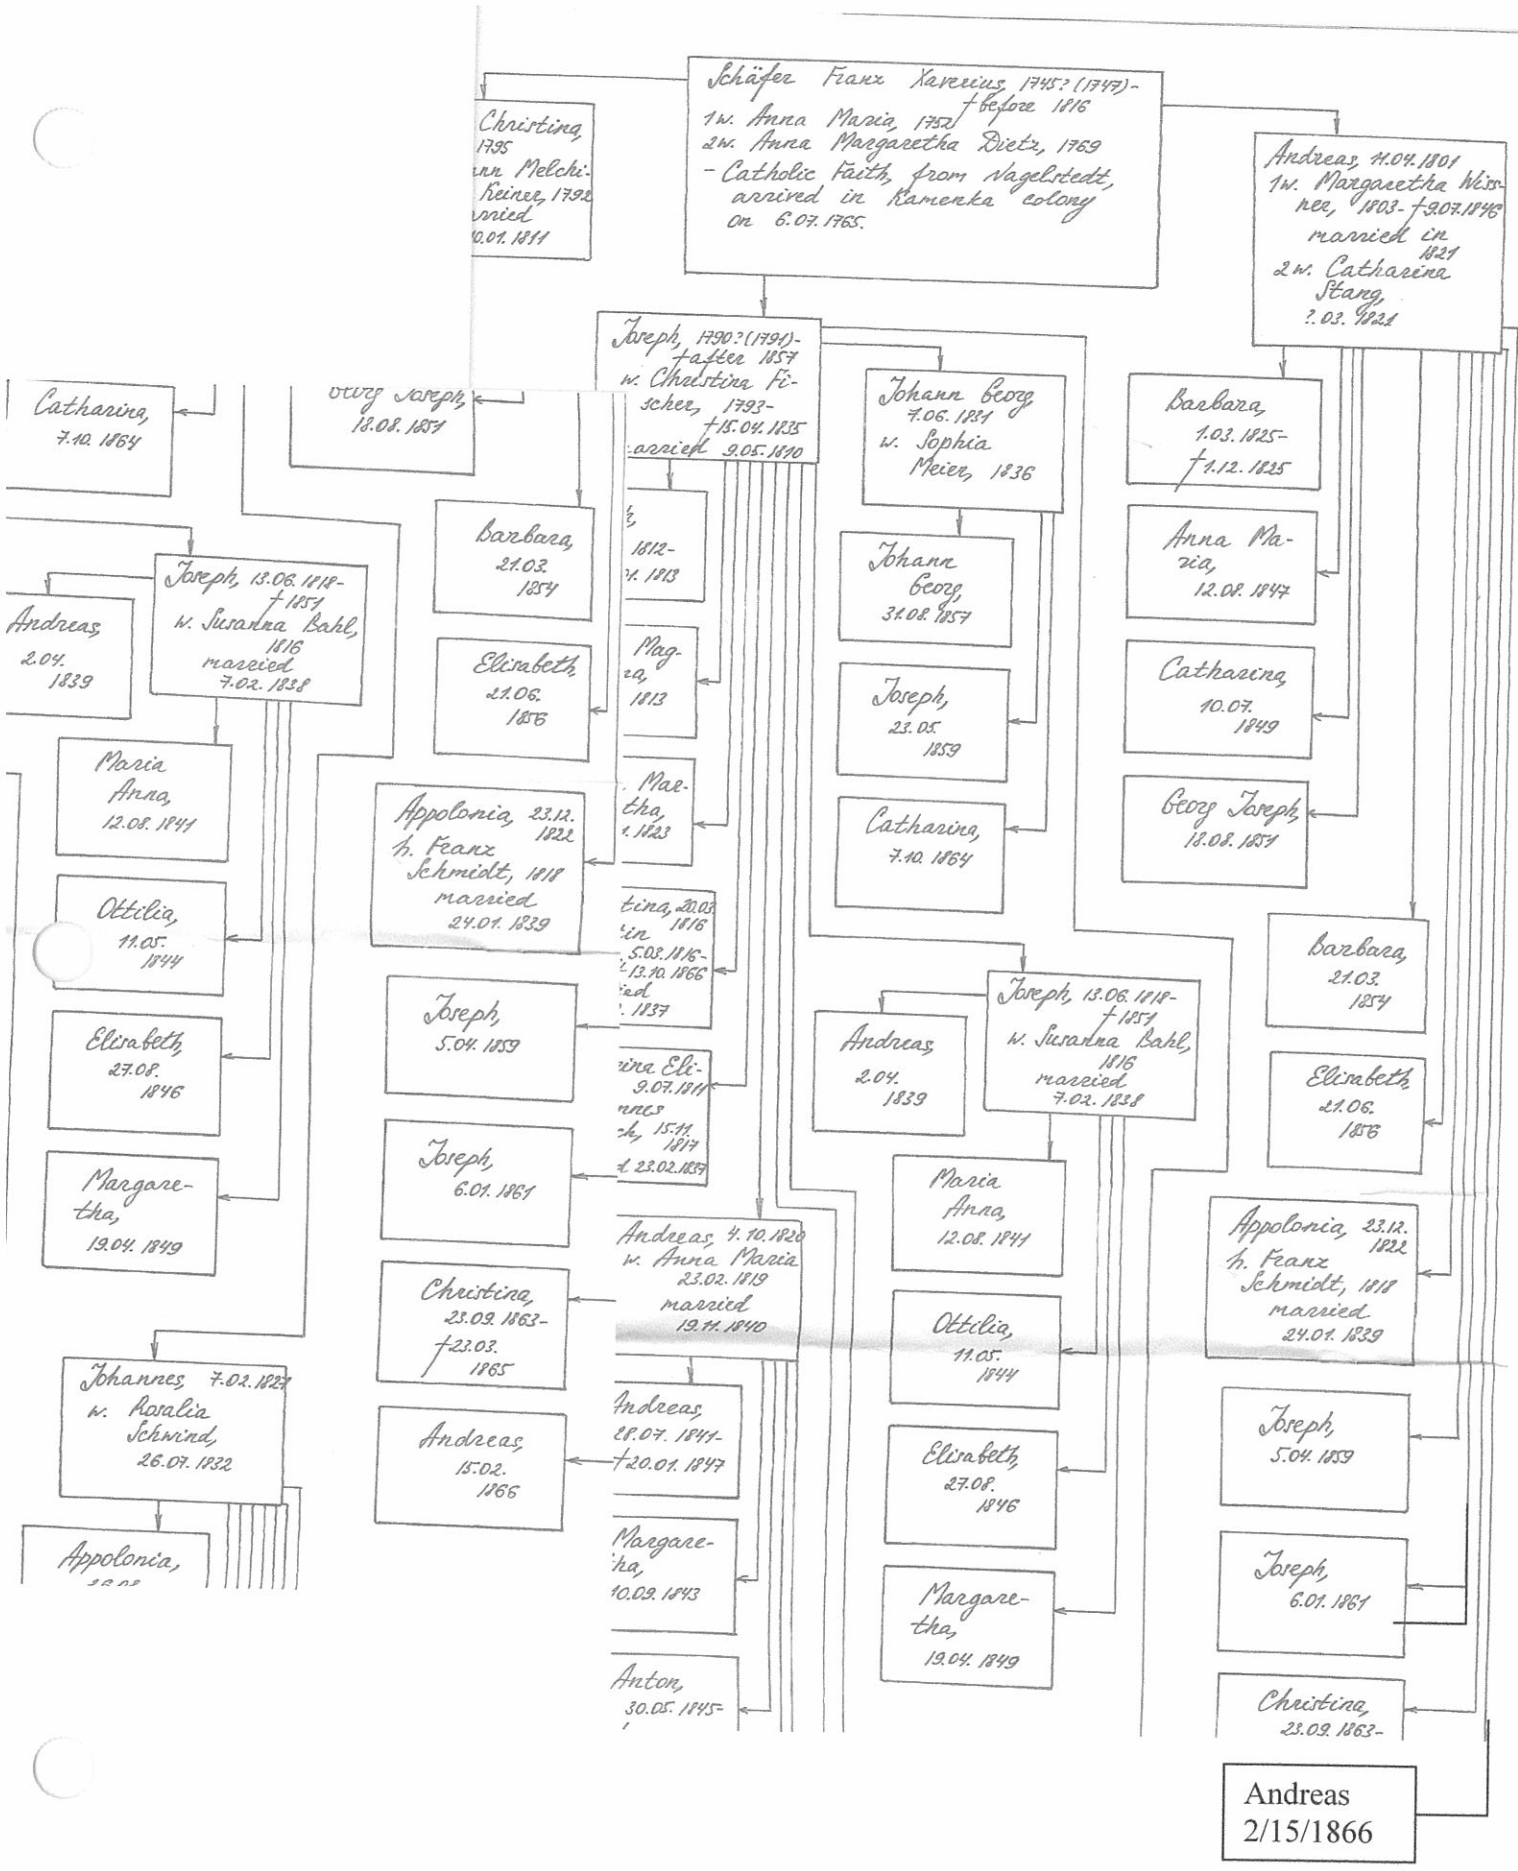

Comments

1. In 1798, Georg Soterius Schayer paid all state debts & received passport which permitted him to build his cabin. This colony he did not have any land, but was small seed merchant.

2. Parents of Ann Margarete Ditzel: father Philip Ditzel (born 1711) mother Barbara (born 1735). She was second wife of Philip Ditzel. They are both Catholics from town of G. Both are Protestants.

From the office they have received 200 marks & 1 paw (?). They have arrived to Kamanka 07/06/1765

## CHAPTER SIX

### WIVES OF SCHAEFER ANCESTORS

This would not be complete if we do not mention the ladies of our ancestors. I will do this in reverse as we have better information.

#### AGNES CLARE MAGRANE SCHAEFER

Married J.M. Schaefer on May 30, 1893 in Hays, Kansas. She was a school teacher before marriage. (see *The Goodly Heritage* for more detail) She was born August 13, 1873 a resident of the Town of Mitchell, Fond du Lac County, Wisc. This Town lies east of the city of Fond du Lac located on the south end of Lake Winnebago and approximately 75 mi south of Green Bay, Wisc. The 1873 Town of Mitchell plat map shows the Magrane farm land.

#### CATHERINA STANG SCHAEFEER

Married Andreas Schaefer in Kamenka, Russia She was born in 1821 and was the second wife of Andreas. As best as can be determine from various sources she was the daughter of Joseph Stang who was the son of Sebastian Stang who traces his history to Bernhard Stang born in 1716 in Germany. Frank Stang of Canada has written a comprehensive book on the German emigrations to Russia including the Stang family. In Russia the colony of Vollmer (a.k/a Kopenka) was the location of the family. Incidentally the Stang name was also spelled Schtank and Schtang—erronously or not??) We have no information how Andreas met Catherina (Catherine in the U.S.) She is buried in Hays, Ks having died on Sept 13, 1916 a resident in J.M. Schaefer home having resided with him since arriving in America in 1878. (Unfortunately any history from Catherine died with her, J.M., Aunt Agnes and Grandma Agnes Schaefer)

#### MARGARETHA WISSNER SCHAEFER

Married Andreas Schaefer in 1821. She was born in 1803 and died in 1846. We have no information regarding her or her place of birth other than one of the colonies of the Volga Germans, probably Vollmer, Kamenka or Pfeifer which were all close together. Three Children were born of that marriage—Appolonia, Andreas and Barbara. She was buried in Russia.

ANNA MARIA ----- SCHAEFER (maiden name unknown)

She was the first wife of Franz Xavier Schaefer our first known ancestor who emigrated from Germany to Russia. She is not shown of Pleve first family chart but is on the second chart. Following her name is the year 1752 but with no indication whether or not that is her date of birth or marriage date.

The 1775 census of Kamenka lists Franz (age 26) (on the first settlers list he was age 22 in 1765) and Anna Maria (age 23). No children are listed. However the 1798 Census of Kamenka lists Franz Xavier at age 51 and wife Anna Margareta Dietz (his second wife) at age 29 and one son Josef age 8, born according to Pleve family charts in 1790 and a daughter (Anna) Christina age 3 born 1765. The ages do not add up nor does the time span as is often the case with records at this time. As is said "go figure." So the conclusion is that the three children of Franz-Josef, Anna Christine and Andreas—were with his wife Ann Margaret Dietz mentioned next.

ANN MARGARET DIETZ (DITZ)

She was born in 1769 to Philip Ditz and Barbara Ditz—a second wife of Philip. Pleve notes on the first chart that they were from Alz (Alzey) Germany. As noted above three children—Joseph, Anna Christina and Andreas—were born to that union. Little more is known about Ann Margaret. Presumably she came from one of the German-Volga colonies.

THE END

## CHAPTER SEVEN

### FRANZ XAVIER WAS NOT ORIGINALLY FROM NAGELSTEDT-ARGUMENT

Prof Igor Pleve on his first chart states that Franz Xavier originally came from Nagelstedt, Germany. Is this real? No other original settlers in Kamenka came from Nagelstedt. At this time most of the emigrants to Russia came from southwest Germany—Wurtemberg, Baden and the Pfalz. J.M. Schaefer told Victor Schaefer he thought they came from the “Pfalz”. No village given. Furthermore citizens of Germany were not permitted to freely emigrate. They needed a permit to leave. Often a person would leave without a permit and go to an area where a permit would be given. Furthermore the German citizens were mainly Catholic or Lutheran. Nagelstedt was a Lutheran community. The areas to which they went in Russia were also Catholic or Lutheran. There were 104 colonies in the Volga area. The Catholic colonies were on the west side of the Volga—including Kamenka. The Lutheran communities were on the east side.

Cousin Joe Schaefer went to Nagelstedt and found no evidence that Franz Xavier was in Nagelstedt or came from there. He was told by a Lutheran Pastor, after checking records back to the early 1700's, that the “hypothesis that Franz may have traveled to his area for an exit visa was entirely logical as the princes in that area wanted no part of any Catholics So, they would have been more than happy to give him a pass.” He also mentioned that records of such passes were discontinued 100 years ago. Joe also checked Hettingen and other sites for records of Franz and found none.

So where did Franz come from?? My supposition is that it was Emfinger, located in the area from which most emigrants departed. Further upon researching the name in the records of IGI at the Church of Jesus Christ of Latter-day Saints. (Mormans) we find likely family ties.

In Emphingen there is shown on the IGI records the family of Franciscus Joseph Schaefer and his wife Catharina Blocher. They had five children one of whom was Franciscus Josephus Schaefer, born 3/12/1745. They also had another son Joannes Franciscus X Schaefer, born 6/23/1742.

Another family from Emphingen was that of Christianus Schaefer and Magdalena Hellstern. Their children were:

Maria born 2-3-1738  
Barbara born 8-29-1739  
Magdalena born 3-21-1741  
Anna Maria born 9-24-1742  
Barbara born 5-14-1744  
Franciscus born 5-16-1745  
Anna Maria born 3-20-1747  
Barbara born 12-24-1747  
Francisa born 1-18-1750  
Magdalena born 7-9-1752  
Franciscus Xaverius born 12-3-1748  
Clara born 6-14-1750  
Wendelinus born 10-12-1752

As was often the practice if one child died that name would be given to a following child when born.(our J.M. was the second Joseph in his family following another Joseph who had died—see chart 2) In this family there were three named Barbara, two named Magdalena and two Francisus. The Francisa was female. It is possible that the first Francisus also died after his birth and thus the second Francisus was named the same with a middle name Xaverius! Was Francisus Xaverius the Franz Xavier who emigrated to Kamenka in 1765 at the reported age of 22 years. Or did he take his brother Francisus birth date of 1745?? The age differences in the records are never consistent so that does not become a problem.

Or is Franz Xavier the son of Francisus Schaefer and Catharina Blocher, born 6-23-1742? (23 yrs in 1765).

Another fact is that families used the same first names over again in later generations. Many of the first names in the Christianus and Magdalena Schaefer are the same used in the Andreas Schaefer family!!

If this is a logical assumption we find in the IGI records that Christianus (husband of Magdalena) was born in Emphingen in Jan. 1715 to Jacobus Schaefer and Magdalena Helstern.

On the premise that Franz Xavier came from Emphingen (from either family above) I retained James A Derheim of European Focus Photography to do a photo book of Emphingen. (at the cost of \$400), Following is a Google Aerial of Emphingen.

Mary Ann Herber, head of the history and genealogy section of the Brown County Wisconsin library ,says my supposition is not accurate genealogy but who is to say?? Not bragging--but who is to say--since I know more of the family genealogy now than anyone else in the clan!!! I go with this logic until I meet my ancestors in the hereafter or until someone else can show me differently. At least it takes me back to 1715 with valid records of the Morman library.

Logical lawyer argument.--?? I lay the gamut down for someone to take up the history and prove me wrong. . Hurry though, I'm not getting any younger!!!

EMPHINGEN GERMANY FROM GOOGLE EARTH

## CHAPTER EIGHT

### ENDLESS KNOWLEDGE AND INQUIRIES

Just as I was going to print and publish this treatise in a hard back book along comes a chain of emails from a web page with new questions and facts. So I decided to leave the knowledge door open and print this in loose leaf.

I have attached some of the emails—the new inquiries are about:

Name of ship and captain of the ship transporting the Germans to Russia.  
as well as dates of movement.

Kulberg lists of Germans arriving in Oranienbaum, Russia. A Russian by the name of Kulberg cataloged the German records for each German arriving in Russia. He supposedly listed all adults and children, place where emigrated from and place (colony) to which they were going. Reported records have been located. Pleve talks about publishing a book of 26,000 Germans in a 600 page document. Only in German or Russian at first (?). English translation to follow. He notes that it will be costly!!

An email attached to this section from Pleve in 1998 states that inasmuch as our ancestor Franz Xavier arrived in Kamenka in 1765 there are no Kulburg lists for that period. He says they "are simply not preserved."

What further information that will come from Russia in the future is unknown but it seems to be a fact that as records are still being found and opened to public inspection in Russia new information is coming forth. Communism is slow to open the doors!!

---

Dear Bob Schaefer,

We are very sorry for keeping silent so long. At first we traveled in Spain and then participated in an international convention and were extremely busy. We are thankful to you for high evaluation of our work, and answer to your questions:

1. J.Kulberg's record lists most fully present data about colonists who arrived in Oranienbaum in 1766 and, accordingly, settled in the Volga region in 1767. The family of Xaverius Schaefer settled in Kamenka colony already on 6.07.1765. Consequently, it had left Germany and arrived in Oranienbaum in 1764. J.Kulberg's lists for that period are simply not preserved.

2.Regretfully,no other information on the first wife of Xaverius is available in the earlier documents of Kamenka colony. It's impossible to find out even her surname.

3.The parents of Anna Margaretha Schaefer, nee Dietz, were:  
Johann Adam Dietz,1747, and Christina, 1747.

In his turn, Johann Adam's father was Philipp Dietz, 1713. The name of his mother is unknown, as she died before 1768, perhaps, still in Germany. The father of J.Adam- Philipp, remarried Barbara, 1737. Several children were born to them already in Kamenka.

With best wishes, Igor and Ludmila Pleve.

List of Immigrant Ships to Russia (1763-1772)

This project relied heavily on Igor Pleve's "The German Colonies on the Volga: The Second Half of the Eighteenth Century", Internet searches, and of course you---the individuals who contributed information. A special "thank you" is in order for those village coordinators who spent considerable time and effort extracting and forwarding their collective information to me. While I think we may have a clearer image of the maritime migration of our immigrant ancestors, there remain many missing pieces to this puzzle. For me it became a complex exercise in how to integrate the data into a single list without making assumptive errors. The project turned out to be more difficult than I had initially thought.

How might this compilation be used? I think someone might gain clarity on a date, name of a ship or commander as he or she compares the list to his or her own information. On the other hand it may raise additional questions. Ideally I'd like to see someone go further with this project such as learn more about the vessels themselves and in particular locate some ship manifests that may exist somewhere. There are probably other avenues of research too that I'm not thinking about right now.

I would like to share a couple of conclusions I've reached in the process of doing this project. Some Pleve family charts (particularly those with early commission dates) often didn't include the ship/skipper name or date of arrival into Oranienbaum. In later commissioned charts Pleve was more likely to use the Kuhlberg Lists for its ship/skipper arrival information. The accuracy of translation of the name of a ship or skipper into English

appeared to improve with time. In all probability the occasional confusion as to whether "xyz" was the name of a commander or name of a ship likewise may have resolved itself through experience---but that is only my assumption. All of this seems to point to a "learning curve" for Dr. Pleve and his collaborators. : )

Enjoy!

Tim Weeder

Ships: Danzig ships "Danzig Hope" and "Kleine Andreas" [see next entry]

Skippers: Under the commands of Johann HESCHKE and Jakob JANSON

Port of Departure: Danzig

Colonists: 336 persons mainly from area surrounding Danzig

Kuhlberg Document #s: Probably didn't begin until arrival of "Kleine Andreas" [below] thus "Danzig Hope" probably was the ship that arrived at the end of April and before Kuhlberg lists began.

Source: Pleve, "The German Colonies on the Volga..."

Arrival into Oranienbaum: 4 May 1766

Ship: "Kleine Andreas" and alternatively "Small Andreas" [see above entry]

Skipper:

Port of Departure:

Colonists: 219 persons

Kuhlberg Document #s: Unknown but presumably 1-77

Vorsteher: Jacob Hussenbach

Source: Pleve, "The German Colonies on the Volga..."; Rosemary Larson provided start dates of Kuhlburg Lists and List Roll Call.

Arrival into Oranienbaum: 12 May 1766

Ship: Anna Catharina

Skipper:

Port of Departure: Luebeck

Colonists: 281 persons/84 families

Kuhlberg Document #s: 78-164

Recruiter: Beauregard

Source: Pleve, "The German Colonies on the Volga..."

Arrival into Oranienbaum: 20 May 1766

Ship: Catharina Eleanora [alternatively spelled Catharina Eleonara]

Skipper:

Port of Departure:

Source: List Roll Call

Arrival into Oranienbaum: late May and early June 1766

Ships: Three (3) Russian vessels: naval frigate and several transports

Skippers: Lieutenants Dmitrii KRYUKOV, Ivan PEREPECHNOI, and Sergei PANOV.  
Port of Departure: Luebeck to Reval (Tallin) Estonia in April and then to Oranienbaum in May.  
Colonists: 808 persons dispatched in May 1766.  
Source: Pleve, "The German Colonies on the Volga..." and Bartlett, "Human Capital..."

Arrival into Oranienbaum: 30 May 1766 [one of two trips made in 1766]  
Ship: Russian vessel "Novaya Dvinka" [alternatively spelled New Drinka, New Dwinka and New Dvinka]  
Skipper: Lieutenant Ivan PEREPECHNYI  
Port of Departure: Luebeck  
Source: List Roll Call and Pleve, "The German Colonies on the Volga..."

Arrival into Oranienbaum: Unknown [one of two trips made in 1766]  
Ship: Russian vessel "Svyatoi Pavel"  
Skipper: Midshipman Fyodor SORNEV  
Port of Departure: Luebeck  
Source: List Roll Call and Pleve, "The German Colonies on the Volga..."

Arrival into Oranienbaum: Unknown [one of two trips made in 1766]  
Ship: Russian vessel "Lev"  
Skipper: Lieutenant Fyodor FYODOROV.  
Port of Departure: Luebeck  
Source: Pleve, "The German Colonies on the Volga..."

Arrival into Oranienbaum: Unknown, but probably one of the following: 31 May 1766, 9 August 1766, 29 August 1766 entries for the ship "Elephant", and 30 September 1766 entry for the ship "Slon"  
Ship: Elephant [alternatively "Slone" in Russian language]  
Skipper: Unknown, however this vessel was part of a group escorted by Lieutenant Sergei PANOV.  
Port of Departure:  
Source: List Roll Call

Arrival into Oranienbaum: 31 May 1766  
Ship: Elephant [see previous entry]  
Skipper:
